

And look at this beautiful code

```
% Here is some code
\setcounter{secnumdepth}{1}
\begin{document}
  \section{My section (and Hi!)}

  \unknowncommand\knowncommand
  \inAccA\inAccB\inAccC
  \section  $\sqrt{2}$   $\leftarrow$  cool!

  Insert literal tildes like ~. Hi!
\end{document}
```

with some text after it.
